Out at Last .- An old man named Gregg, who has been confined in Fauquier county inil since the first of October, 1846, for dobt, under the old law, was released on Christmus day, by jailor Cross, there being nothing left in the bands of the law to pay is jul expenses. We learn that this man had property enough to pay the debt against him, but that he preferred spending his weary hours within the gloone walls of the county prison to paying the debt which he owed. The person who had him confi aed has been dead some years, but we learn out a provision in his will appropriating a sufficient amount to keep him in limbo as long as he lived. Hunders will never Crase .- It is now ravely proposed not to deepen but fel up the Harlem river, at New York, so as to extend the city, when necessary, in that direction. Sixty years ago there was sixted feet depth of water on the present site of the Tombs, and it is not so long since (i.nal street and its vicinity were a running stream. Harlem river, therefore, might be nonverted into building lots, and its obliceration from the may would certainly render the neighborwood more healthy.

They don't help complaints, but they cure them. One box has cured Dyspopsia : three boxes have cured the worst cases of Scrofula; two boxes have cured Erysloelas; one box always cures the Jaundice : three taxes are sure to cleause the system from Bods, often less than one does it; two boxes have complotely cured the worst of nicers on the legs; small doses seldom fail to cure the Piles : one dose cures the headache arising from a foul stomach; strong doses often repeated expel every worm from the body : they should be given to children, who are always more or less aillicted with this scourge. As a gentle physie they have no equal. One box cures derangement of the Liver; half a box cures a cold; they purify the blood, and thus strike at the foundation of every disease ; as a Donner Pill there is not their equal in the world.
